

MEDUSA

A TRANSFIXING EXPRESSION OF TIME

Medusa is a dual-configuration clock, housed in hand-blown Murano glass, that can be ceiling mounted or stood upon a desk.

The central mass of Medusa is formed by a large transparent dome of hand-blown Murano glass that evokes the bell-shaped body of a mature jellyfish. Two rotating rings, one displaying the hours and the other

displaying the minutes, are visible through the dome, and the time is read off a single fixed indicator that extends over the rings. Like a jellyfish glowing in the abyss, Medusa glows in the dark thanks to Super-LumiNova.

TECHNICAL SPECIFICATIONS

LIMITED EDITIONS

50 pieces per color

FUNCTIONS

Hours and minutes
Dual configuration: Ceiling-mounted or Standing

POWER RESERVE

7 days

ENGINE

L'Épée suspended movement, designed and manufactured in-house

Balance frequency: 2,5 Hz / 18,000 bph
23 Jewels

Incabloc shock protection system

WINDING & TIME SETTING

Integrated winding key: unique propeller at the bottom of the movement

DIMENSIONS

231 components

Hanging position: 286 mm tall x 250 mm diameter

Standing position: 323 mm tall x 250 mm diameter high

Weight: approximately 6 kg

MATERIALS

Dome/tentacles: Murano hand-blown glass
Movement and standing base: stainless steel and brass
Indexes and top plate with Super-LumiNova

FINISHINGS

Geneva waves, anglage, polishing, sandblasting, circular and vertical graining, satin finishing.
