

### BULLET TIME

Even without MB&F leading the design, L'Epee isn't exactly lacking for creativity.

The avant garde clockmaker's latest though is incredibly cool, even by its high standards. Created in partnership with The Unnamed Society - a small circle of anonymous celebrities - this is the Revolver Table Clock. Each gun-turned-timekeeper is unique, with grip and engraving made to order, fully loaded with exotic leathers, gems, you name it. Just don't go waving it about.
