

STARFLEET MACHINE

IT'S A TABLE CLOCK, JIM, BUT NOT AS WE KNOW IT!

Starfleet Machine is an intergalactic spaceship-cum-table clock, featuring hours and minutes, double retrograde seconds and power reserve indicator.

Starfleet Machine is an ultra-exclusive table clock. The central dome of this kinetic sculpture indicates hours and minutes thanks to two rotating curved-hands. Next to this dome is a visible escapement, being "guarded" by double retrograde seconds

symbolising "turret-mounted laser cannons". Each cross-over of these cannons marks 20 second intervals on the timepiece. Behind the central dome is a second one, smaller, displaying the 40-day power reserve, flanked by a revolving radar dish.

TECHNICAL SPECIFICATIONS

DISPLAY

Hours and minutes
Curved, handpainted hands rotate on a black central dome
Double retrograde seconds
20 second intervals indicated by double retrograde flyback cannons
Power reserve indicator:
40 days represented by a dome indicator framed by handfinished arcs. Intuitive view of remaining energy, turns 300°. Complemented by a «radar dish» that also revolves 300°

MAIN STRUCTURE

Height: 21 cm
Diameter: 29 cm

MATERIAL

Stainless steel and palladium plated brass

MOVEMENT

L'Epée inhouse designed and manufactured movement
Balance frequency: 18,000 bph / 2.5Hz
Barrels: 5 in series

JEWELS

48
Incabloc shock protection system

WINDING

Manual winding: double ended
key to set time and wind movement

50.6801/301
Palladium-plated movement with Chocolate-bronze-color (PVD) brass
